## IT'S WHAT WE KNOW.

# DUMP BODY

[www.swensonproducts.com](http://www.swensonproducts.com)

## Ready for the long haul.

Swenson Dump Bodies are designed with innovative features that provide maximum durability and usability. High tensile strength steel provides greater rigidity and lighter weight when compared to other dump bodies. A wide variety of customizable options are available to meet your exact needs.

- ▶ DESIGNED FOR TRUCK CLASS 20,000+GVW
- ▶ 9' TO 15" LONG
- ▶ 5 TO 16 CU YD CAPACITY

# SWENSON

IT'S WHAT WE KNOW.

## Features

Available with one-piece seamless floors for smoother material flow.

Cross member less design eliminates material build-up.

Utilizes either a front mount telescopic hoist or underbody hoist.

Formed sides minimizes corrosion and increases overall strength.

## Dump Body Specifications
