

# 2020 NEW PRODUCTS

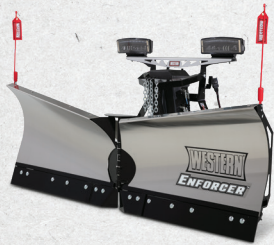

At Western Products, we're committed to continuously working to expand our line of innovative snow and ice equipment and accessories so that we can deliver on the promise we make to our customers: More Jobs. Done Faster.

## SNOW CONTROL EQUIPMENT

### ENFORCER™ V-Plow

The all-new WESTERN® ENFORCER v-plow, with trip-edge design, is constructed of high-strength, low alloy steel and purpose-built for half-ton trucks. The ENFORCER v-plow is engineered with the features and benefits of full-size WESTERN v-plows, brought down into a lightweight design that's ideal for today's homeowners and contractors.

- Blade width: 7'6" | Blade height: 26" at the center up to 33" at the outer edge
- Available in both stainless steel or powder-coated steel
- Constructed of high-strength, low alloy steel that makes it stronger and lighter than conventional steel, and the ideal weight for half-ton trucks
- UltraLock double-acting cylinders hold the wings firmly in place for clean, efficient back dragging and allow operators to control the v-plow in straight blade mode by locking the wings together
- Attaches easily with the WESTERN UltraMount® 2 mounting system
- Configures to varying vehicle heights in order to maintain optimum performance
- Plow blades are pre-punched for easy installation of accessories
- Accessories include: 10" rubber deflector, shoe kit, AR400 steel curb guards, cast iron curb guards, ½" steel cutting edge, 1" poly cutting edge, blade stops, back drag edge

### PILE DRIVER™ Steel-Edge Pusher Plows (12', 14', 16')

The new 12', 14' and 16' pusher plows add to the lineup of WESTERN PILE DRIVER steel-edge plows. These three new sizes are designed specifically for larger pieces of construction equipment. The two-piece, steel trip-edge design delivers a cleaner scrape for hard-packed snow and ice while protecting operators and their equipment when encountering hidden bumps and obstacles.

- Designed for wheel loader applications
- Interchangeable attachments offer the flexibility to quickly and easily attach the pushers to various pieces of equipment within a fleet
- Floating attachment plates smooth out bumps and allow side-to-side movement, keeping the pusher in contact with the surface at all times
- Floating shoes keep the cutting edge level on uneven surfaces to maintain a clean scrape

### UltraMount® 2 Attachment Kits For Tractors

The all-new WESTERN UltraMount 2 attachment kits for tractors accommodate the demand for non-truck mounted snowplowing applications. Designed for easy installation onto a range of OEM tractor models, these kits allow you to attach WESTERN heavy-duty straight blades, v-plows and winged plows to tractors, providing increased efficiency and versatility.

- Removable push beam allows for easy installation and removal
- No need to uninstall the mount to reattach the loader system

MORE JOBS. **DONE FASTER.**

## ICE CONTROL EQUIPMENT & ACCESSORIES

### Striker™ 0.7 Cu Yd Stainless Steel Hopper Spreader

The WESTERN® Striker™ 0.7 cu yd stainless steel hopper spreader is purpose-built for half-ton and light-duty trucks. The features and accessories give you the performance, capabilities and efficiency of WESTERN's larger Striker hopper spreaders, but in a more compact size that's better suited to handle smaller spaces and jobs. It's been designed to provide excellent material flow and delivery to the spinner.

- 5' long hopper
- Delivers a spreading width of up to 30'
- Stainless steel, riveted construction, with 16"-wide pintle chain conveyor system
- Dual variable-speed control provides precise control of material delivery
- Flip-up chute for easy hitch access and clean-out
- Accessories include: 0.5 cu yd extension collars, 50-gallon pre-wet and direct liquid application kit, spill guard kit, work light kit, strobe light kit, central point grease kit, vibrator kit, inverted V kit, tarp cover, hold down kit

### Striker 0.35 Cu Yd Stainless Steel Hopper Spreader

The Striker 0.35 cu yd stainless steel hopper spreader delivers reliable, low-maintenance performance with more control. The 0.35 cu yd model is designed to allow material to flow smoothly and efficiently, and is purpose-built with many of the same features of our larger Striker hopper spreaders but at the right size for UTVs and compact trucks.

- 3' long hopper
- Delivers a spreading width of up to 20'
- Stainless steel, riveted construction, with 12"-wide pintle chain conveyor system
- Dual variable-speed control provides precise control of material delivery
- Flip-up chute for easy hitch access and clean-out
- Accessories include: 0.25 cu yd extension collars, spill guard kit, work light kit, strobe light kit, central point grease kit, vibrator kit, inverted V kit, license plate kit, tarp cover, hold down kit

### UTV Spreader Control Shield

Keep your UTV spreader control protected from the elements with the all-new UTV spreader control shield.

- A molded, plastic "visor" attaches to the top of the UTV spreader control to protect it from the rain or snow
