

ENFORCER™ V-PLOW

“

WESTERN

PUT YOUR HALF-TON TRUCK TO WORK

The all-new WESTERN® ENFORCER™ v-plow, with trip-edge design, is constructed of high-strength, low alloy steel that makes it stronger and lighter than conventional steel, and the ideal weight for half-ton trucks. The ENFORCER v-plow is engineered with the features and benefits of full-size WESTERN v-plows, brought down into a lightweight design for today's homeowners and contractors.

MORE JOBS. **DONE FASTER.**

ENFORCER™ V-PLOW

PURPOSE-BUILT FOR HALF-TON TRUCKS

BLADE OPTIONS & CONSTRUCTION

Available in either stainless steel or powder-coated steel, the ENFORCER™ v-plow features a blade width of 7'6" and flared wings with a height of 27" at the center up to 33" at the outer edges. Constructed of high-strength, low alloy steel, the ENFORCER v-plow is stronger and lighter than conventional steel, and the ideal weight for half-ton trucks.

ULTRALOCK DOUBLE-ACTING CYLINDERS

Like larger WESTERN® v-plow models, the ENFORCER v-plow comes standard with UltraLock double-acting cylinders that hold the wings firmly in place for clean, efficient back dragging and allow operators to control the v-plow in straight blade mode by locking the wings together.

TRIP-EDGE DESIGN

Independent trip-edge protection in all configurations—V, scoop or straight—keeps snow in front of the blade while protecting you and your equipment when encountering hidden obstacles.

EASY ATTACHMENT & CONFIGURATION

The ENFORCER v-plow easily attaches to your vehicle with the WESTERN UltraMount® 2 mounting system. Plus, it's engineered to configure to varying vehicle heights in order to maintain optimum performance.

FEATURED ACCESSORIES

- 10" Rubber Deflector
- Shoe Kit
- AR400 Steel Curb Guards
- Cast Iron Curb Guards
- ½" Steel Cutting Edge
- 1" Poly Cutting Edge
- Blade Stops
- Back Drag Edge

HEADLAMP OPTIONS

Choose between LED or dual-halogen NIGHTHAWK™ headlamps. The LED headlamps feature EdgeView™ technology, providing a full 180 degrees of light from plow edge to plow edge and producing up to twice the light output of traditional halogen bulbs.

The dual-halogen headlamp option also offers improved brightness and reach with better low- and high-beam performance than traditional halogen headlamps.
