

New for 2020

SNOW REMOVAL PRODUCTS

RDV™ V-Plow

Redefine what your half-ton truck can do. The new SnowEx[®] RDV V-plows have the features and benefits of the larger plows but are specifically designed for half-ton trucks.

- / 7'6" wide in straight blade /6'9" wide in V mode
- / 27" high at center /33" high at outer edge
- / Available in stainless steel or powder-coated steel
- / Constructed of high-strength, low alloy steel, making it stronger and lighter than conventional steel, and ideal for half-ton trucks
- / Trip-edge design protects equipment and operators when striking unseen obstacles
- / Direct lift system provides full range of motion for stacking and transport
- / Double-acting angle cylinders allow the operator to adjust wings independently or to lock them together for efficient straight blade operation and clean back dragging
- / Fast, simple Automatixx[®] attachment system – connect from one side of the truck
- / Configures to varying vehicle heights in order to maintain optimum performance
- / Plow blades are pre-punched for easy installation of accessories
- / Choose between STORM SEEKER™ LED or halogen headlamps

Accessories Include: 10" Rubber Deflector, Shoe Assembly Kit, AR400 Steel Curb Guard Kit, Cast Iron Curb Guard Kit, ½" Steel Cutting Edge, 1" Poly Cutting Edge, Blade Stop Kit, Back Drag Edge, Scrape Maxx™ Down-Force Kit

Automatixx[®] Attachment Kits For Tractors

The new Automatixx attachment kits for tractors accommodate the growing demand for non-truck mounted snowplowing applications. Designed for easy installation onto a wide range of tractor models, these kits allow for direct attachment of SnowEx V-plows, winged plows and heavy-duty straight blades to tractors for improved plowing efficiency.

- / Removable push beam for easy installation and removal
- / No need to uninstall the mount to re-attach the loader system

HELIXX™ Stainless Steel Hopper Spreaders

The HELIXX stainless steel hopper spreaders are unlike anything else on the market. Not only do they deliver the proven durability and corrosion-resistant benefits of stainless steel, but they also feature the exclusive HELIXX material delivery system, a revolutionary design that helps prevent clogs and delivers a material flow superior to traditional augers.

- / The corkscrew, or "helix," design of the material delivery system is optimized for efficient/cost-effective use of salt, and was designed to operate in the target range for salt spreading best practices
- / Choose from hopper capacities of 1.5, 2.0, 3.0, 4.5 or 6.0 cu yd, to best match your operational needs
- / Patented Inverted "V" Baffle – Vibrator attached to a solid steel inverted "V" baffle provides a consistent flow of bulk materials to the auger

- / Triple Threat! – Transform your operation by adding an optional plug-and-play upgrade kit and you can spread, pre-wet or spray with one machine

Accessories Include: Poly Lid Kit, Spill Guards, Pre-Wet and Direct Liquid Application Kits, Chute Extension Kits, Work Light Kits, Strobe Light Kit, Chain Kit, Ratchet Strap Kit, Truck Mount Kits, Vehicle Side Harness Kit

HELIXX 0.7 cu yd Stainless Steel Hopper Spreader

The new HELIXX 0.7 cu yd stainless steel hopper spreader is right sized for today's most popular half-ton and light-duty trucks. Like the full-sized HELIXX units, the 0.7 cu yd model provides excellent material flow, but in a more compact size that's better suited to handle smaller spaces and jobs.

- / 54.5" long hopper; requires minimum bed length of 44"
- / Delivers a spreading width of up to 30'
- / Stainless steel, riveted construction, with exclusive HELIXX material delivery system for optimized flow
- / Dual variable-speed control for simple, precise material delivery
- / Flip-up chute for easy hitch access and clean out
- / Triple Threat! – Transform your operation by adding an optional plug-and-play upgrade kit and you can spread, pre-wet or spray with one machine

Accessories Include: Spill Guards, 0.5 cu yd Extension Collars, 50 Gallon Pre-Wet and Direct Liquid Application Kit, Inverted V Kit, Vibrator Kit, Work Light Kit, Strobe Light Kit, Ratchet Strap Kit

HELIXX 0.35 cu yd Stainless Steel Hopper Spreader

Apply consistent, controlled material delivery to smaller areas with the new HELIXX 0.35 cu yd stainless steel hopper spreader. The 0.35 cu yd model is built with many of the same features as the larger stainless steel hoppers and is designed to fit UTVs and compact trucks.

- / 30" long hopper; requires minimum bed length of 28.5"
- / Delivers a spreading width of up to 30'
- / Stainless steel, riveted construction, with exclusive HELIXX material delivery system for optimized flow
- / Dual variable-speed control for simple, precise material delivery
- / Flip-up chute for easy hitch access and clean out

Accessories Include: Spill Guards, 0.25 cu yd Extension Collars, Inverted V Kit, Vibrator Kit, Work Light Kit, Strobe Light Kit, License Plate Mounting Kit, Ratchet Strap Kit

UTV Spreader Control Shield

Protect your UTV spreader control from the elements with the all-new UTV spreader control shield. Molded plastic "visor" attaches to the top of the UTV spreader control, shielding it from rain and snow.
